

SIGHT WORD ACTIVITY

Draw a few 4x4 or 5x5 Grids

Write the sight words that your child needs additional practice with inside each box. Make a list of the words that were chosen and cut these out as your calling cards.

Make 2-4 different BINGO cards and have family members play along.

Chose a caller to slowly call out a word one at a time. Have your players search their card and place a marker on the spot with that word.

The first person to make a line, get 4 corners or get every word on their card WINS. Determine which of these patterns you are playing for before you begin.
