

SIGHT WORD ACTIVITY

Sight Word Count

Choose 3 sight words and write them on a piece of paper or sticky note. Place each word in front of a cup or small dish. Have your child look through each page of a favourite book and find those words. Every time they find one of these words have them place a small item (bean, popcorn kernel, cheerio) into the cup that represents that word.

Once they have looked over every page have them determine which sight word was found the most throughout their book.
