

LITERACY ACTIVITY

Letter Ball

Choose a thrower. This person calls out a letter or says the letter sound.

The catcher responds with a word that begins with that letter.

If the word is correct the thrower throws the ball to the catcher. The catcher then calls out a different letter and the thrower must think of a word that begins with that letter. Play goes back and forth until you have used all 26 letters.

You can also play rhyming ball, where the thrower says a word that the catcher must rhyme with.
