

The Write Stuff

Activity 1: Watch and Write

Watch the video "Trip to the Pencil Factory". Pay special attention to the additional information found in the video that explains how pencils are made at the General Pencil Company. What information from the video would you add to the article to improve your understanding of how a pencil is made? Find three pieces of information and write them down in your notebook. Feel free to pause the video to write down your observations

Link to Video found at the bottom of your story under Teaching Resources

Activity 2: Explore and Write

<https://www.britannica.com/technology/simple-machine>

Look around your house. Can you spot some simple machines? Write down the ones you see and label them with the name of the simple machine.
