Sample question: Would you rather have to crawl everywhere like a baby or hop everywhere like a rabbit?

Sample answer: *I would rather have to hop everywhere like a rabbit because I can get to places faster if I hop. Also, if I crawl everywhere, my hands might get hurt and will always be dirty. Hopping takes a lot of power. If I hop everywhere, I will become more fit and healthy. I would also rather hop than crawl, because I don't want to look like baby all the time!*
