

LITERACY ACTIVITY

Traditional Object

Choose a traditional object that you have seen your grandparents use. Observe it carefully by yourself. Talk with someone else about what you notice. Does it remind you of anything? Ask what it was used for? Brainstorm a list of interesting describing words, phrases, or thoughts that you have about that traditional object. If it helps, sketch a picture of the object and add details that might help you with the list of words and phrases you could use. Share your list with another person and add any more ideas you come up with.
